

VentureWell - Consultant - Timekeeping Links for Programs

If your delivery order indicates you should submit hours via a timekeeping system, please see below for appropriate links. Please contact radxsupport@venturewell.org with any questions regarding the links.

Timekeeping

For programs that use a timekeeping system for tracking consultant hours, please submit your hours at the cadence indicated in your Delivery Order(s), including detailed notes on work completed for all hours logged. Submitted and approved forms will be used directly for tracking programmatic budget and aggregate payment processing. You are responsible for tracking your hours and any hours used outside of your Delivery Order are completed at your own risk. Hours or duties worked outside of your standard scope may require separate Delivery Orders and/or invoices. Please obtain permission from VentureWell before embarking on any extra activities (travel, additional duties, etc).

Links to specific program timekeeping systems:

Please complete the form by the deadline indicated in your Deliver Order for each program under which you have an active Delivery Order.
